

Clavé Henri

Dr CLAVÉ Henri is a gynaecologist surgeon.

He works at the clinic St George in Nice on the French Riviera.

His main activity concerns pelvic surgery and Pelvic Floor Repair.

He was the first to describe the *vaginal hysterectomy with thermofusion* in 2000.

He also performs oncologic pelvic surgery and breast surgery.

His first didactic vidéo « *ganglion sentinelle et cancer du sein* » has had a very large diffusion in France and helped to spread the technic since 2001.

Then he realised a vidéo concerning « *gentle vaginal hysterectomy with thermofusion* » in 2002 and 2005, « *Use of PROLIFT for pelvic organe prolapse* » in 2008 and « *Minimally Invasive Vaginal Hysterectomy with IMPACT forceps* » in 2010.

He published a prospective and personal study concerning 1000 Vaginal Hysterectomy in JMIG (2016)

Dr Clavé teaches these techniques through workshops and « hands on » in cadaver lab. He participates in international congress particularly with live surgery démonstrations.
